

HARIDAS V. KANURE

Pune, MH 412101 | Contact: +91 9137076483 | harikanure007@gmail.com | [LinkedIn](#)

SUMMARY

- Senior Software Engineer with 7.8 years of experience in Full Stack Development using HTML, CSS, VAADIN, JavaScript, React JS, and Java backend technologies.
- Hands-on development and debugging skills with expertise in Java and related backend technologies such as Spring Boot, Hibernate, RESTful API, and Microservices, etc.
- Strong analytical, conceptual, and problem-solving skills to evaluate business problems and apply knowledge to identify appropriate solutions.
- Highly motivated, efficient, and independent worker with strong collaboration skills and work well with cross-cultural teams across geographies.

WORK EXPERIENCE

DMI Innovations Private Ltd, Pune

Senior Software Engineer

Dec 2021 - Present

Roles and Responsibilities:

- Developed the User Interface using HTML, CSS, JavaScript, Stencil JS, and React JS.
- Developed, refactored, maintained, and improved applications based on monolithic and microservice architecture.
- Integrated external API's and components into applications.
- Troubleshoot, debug, and improve existing applications.
- Write technical documentation of applications and systems.
- Write clean and maintainable code that adheres to industry best practices and coding standards. Participated in code reviews to ensure that code is of high quality and meets the team's standards.
- Involved in grooming, planning, estimating stories and identifying dependencies with the product owners, scrum masters and team members.

Skills Used: Java, Spring, Spring Boot, Microservices, Hibernate, SQL, RESTful API, ReactJS, JavaScript, HTML, CSS, AWS, OpenShift, RedHat JBOSS, Maven, Splunk, Azure, etc.

Mediaocean, Pune

Senior Software Engineer

Sept 2020 - Dec 2021

Roles and Responsibilities:

- Developed the User Interface using HTML, CSS, JavaScript, and React JS.
- Designed and implemented RESTful APIs. Integrated external APIs into applications.
- Refactored, Maintained, and improved existing backend systems.
- Monitored and troubleshoot application performance.
- Implemented the solution using messaging platforms like JMS and RabbitMQ.
- Involved in estimating the tasks, code reviews, defect tracking and resolving technical issues.

Skills Used: Java, Spring, Spring Boot, Microservices, Hibernate, SQL, RESTful API, JavaScript, HTML, CSS, Tomcat, RabbitMQ, Maven, Kibana, Jenkins, Oracle, Unit Testing, Git, IntelliJ etc.

Roles and Responsibilities:

- Designed and developed a user interface using the VAADIN framework.
- Developed applications based on monolithic, multi-tier & microservice architecture.
- Interacted with the client directly to gather the requirements and involved in estimating the tasks, code reviews, defect tracking and resolving technical issues.
- Implemented unit testing using JUnit and Mockito, which helped reduce the number of bugs and improve the overall code quality.
- Participated in architecture, design, and implementation of application features and Optimized application performance by using multithreading, Hibernate/SQL query optimization, and caching.
- Write clean and maintainable code that adheres to industry best practices and coding standards. Applied the different design patterns and design principles while writing the code.
- Involved in grooming, planning, estimating stories and identifying dependencies with the product owners, scrum masters and team members.

Skills Used: Java, Spring, Spring Boot, Microservices, Hibernate, JPA, RESTful API, VAADIN, Tomcat, Maven, MyBatis, Unit Testing, GitLab, Jenkins, Kubernetes, Oracle, Git, etc.

SKILLS & COMPETENCIES

Programming Language	:	Core Java
Web Technologies	:	HTML, CSS, JavaScript, React JS, VAADIN.
Framework/Technologies	:	Spring, Spring boot, Spring Security, Hibernate, JPA.
CI/CD Server	:	Jenkins, Kubernetes, GitLab, Azure.
Application Server	:	Apache Tomcat 8, RedHat JBOSS 7.4.
Messaging Queue	:	Apache ActiveMQ, RabbitMQ.
Amazon Web Services	:	EC2, ELB, RDS, S3 Bucket, CloudFront, Elastic Beanstalk, SQS, SNS, etc.
Testing Framework	:	TestNG, JUnit, Mockito, JEST.
Web Services	:	RESTful API.
Databases	:	MySQL, Oracle.
Version Control systems	:	Git, SVN.

COURSES/CERTIFICATIONS

- | | |
|---|----------------------|
| • Java
HackerRank | December 2021 |
| • Java & Advance Java Programming
Profound Edu-Tech Institute, Pune | December 2014 |

EDUCATION

- | | |
|--|--------------------|
| • Bachelor of Engineering in Information Technology
Trinity College of Engineering, Pune | 2010 - 2014 |
| • Diploma in Computer Engineering
Puranmal Lahoti Govt. Polytechnic, Latur | 2007 - 2010 |
| • Secondary School Certificate
Saraswati Vidyalaya, Latur | March 2007 |
